## Selectmen's Report

In submitting our annual report we wish to call your attention to a few points of interest.

At the March meeting, 1920, the voters authorized us to settle the damage suit of John Burke if we could at a reasonable figure; if not, to contest the suit. We were unable to settle, so we contested the suit at a cost of \$1,053.30, for which there was no appropriation.

We deemed it advisable to put our bridges in condition to sustain the required weight. Every bridge was overhauled, planked with new three-inch plank, and new stringers were put in where needed, but owing to the excessive weight of some of the trucks three-inch planks would not hold, one bridge having broken down three times in three weeks. The citizens were called in and the matter talked over, and we were advised to double-plank the bridges to avoid another lawsuit and possibly accident to some person. This, after our highway appropriation had been expended, cost \$1,511.79. We look at this as borrowing from next year, for as far as planking is concerned, nothing will have to be done this year, thus enabling us to save the amount of double-planking last year from the highway appropriation of this year.

The time has come when we should realize that wooden bridges must go, for two reasons: First, public safety; second, financial reasons. We have removed eight of the smaller ones and replaced them with Armco iron culverts, but today we have twenty-one wooden bridges that will hold the weight required by law, six tons, but some of them will not hold fifteen tons which are likely to go across them at any time.

We would recommend that the town replace one of the bridges with cement each year.

Our highways that we used to repair once in the spring lasted for the year; but some of them have been repaired three or four times this last year. The traffic today compared with ten years ago is a great deal different.

Our recommendations of last year, in regard to the brook and culverts running from Charles street through Nebraska, have been carried out.

We also have straightened the trunk line in the lower part of the village, something that needed being done very much.

A careful perusal of the report will show where every dollar has been spent.

Respectfully submitted,

FRANK A. ADAMS,

LEON E. KNOX,

HARRISON G. WALDRON,

Selectmen of Farmington.
